Due to the National government cycle scheme many of the Academy staff are now cycling to and from work on a daily basis which is demonstrating what fantastic role models our teachers are here at the Academy. As a consequence of this not only is our staff becoming more energetic and dynamic but many more of our students are choosing to cycle to school, which means our students are becoming more healthy and dynamic.

If you currently drive you child to school or you are a student who catches the bus, could you consider how you will get to school in the future, could you walk or cycle, we can do our bit for the environment and it is proven that exercise before or during school improves our ability to learn! Have a think could you walk to a further bus stop or even cycle all the way?

Have you all got your BEEZ cards yet? Well if you haven't you are missing out! Blackburn with Darwen is offering **FREE!!!** Session's within a number of areas at venues across Blackburn and Darwen for all ages. You can order your free BEEZ card by ringing 01254 682037 or visit www.refreshbwd.com this is a must check out website. You can pop into the Academy for a booklet on what facilities are available and when, they are on the front reception desk, pop in and collect one.

Finally from me Blackburn Rovers are hosting a couple of events to promote awareness of racism and health. Sunday the 25th October they are arranging a football tournament – girls and boys aged 13- 16 at the indoor centre and an alive & kicking sponsored 1 mile walk event around Ewood Park on 14th November. If you are interested in getting involved email me or visit the Blackburn Rovers Website.

I look forward to hearing your views and opinions really soon, don't forget get active!!!!!!
